

## Reopening Guidelines

In accordance with the CDC/California guidelines for reopening churches we will be following all the mandatory and suggested guidelines at VISION City Church including these specific measures:

### **General:**

- All services will be conducted outdoors in the open air with drive-in parking available for those that wish to remain quarantined.
- Hand sanitizing stations will be at the entrance and exit.
- There will be no refreshments served before or after service.
- There will be no children's ministry classes, and all children will be required to sit with their parents/guardians.
- Disposable masks will be provided for those that do not have one.
- All staff will have their temperature checked before the beginning shift.
- Everyone that has not felt well, or has been sick within 14 days is encouraged to stay home.
- All microphones will be sanitized after use and not used by another person until they are sanitized.
- There will be clear concise communication sent out via email, push notifications, and social media on all protocols to the congregation before their arrival to the church service.

### **Seating:**

- Each parishioner will be required to bring their own seating.
- Each family unit will be required to sit 6 feet apart.
- The congregation will be seated at least 10 feet away from the pastor and band on stage.
- If someone does not want to bring their own seating, or if they feel uncomfortable sitting within the designated seating zone they will have the option of remaining in their car inside the drive-in section of the parking lot where they can watch a live stream of the service.
